6 CPD Points from IPM

COURSE OVERVIEW

Businesses and individuals are overwhelmed by the sheer volume of data to make sense of on a daily basis, and the pressure from senior management is growing to present the data in a meaningful format. Interactive and visual reports need to be created, and Power BI is the perfect tool for it!

The purpose of this course is to enable the delegates to explore and use the advanced capabilities and applications in Power BI, in order to leverage the power of interactive dashboards. This is likely to drive streamlined business intelligence and efficient decision making. It can be utilised in various environments, from a personal report and visualization tool to the analytics and decision engine behind group projects, division or entire corporations. By the end of the course, you will be able to:

- Learn how to use Power BI as an analytical engine
- Transform messy data into orderly format
- Improve strategic decision making and gain competitive advantages
- Create stunning reports quickly
- Format and configure visualisations
- Generate valuable insights for yourself and your company
- Communicate data driven decisions with authority to key stakeholders

DAY 1

Specific Outcomes:

- Business Intelligence Workflow
- Business Intelligence Reports
- Cleaning and Manipulation of Raw Data
- Analysis of Data from Different Data Sources
- Establish Relationships between Data
- Creation of Data Sets

DAY 2

Specific Outcomes:

- Forecasting and Advanced Analytics
- Interactive Dashboards
- Graphs and Data Visualisation
- Labels, Tooltips and Animation
- Power Query and Power Pivot

DAY 3

Specific Outcomes:

- Advanced Power BI Tools
- Measures and Calculated Columns
- DAX and M Formula Language
- DAX Time Intelligence
- Best Practice Tips for Power BI

End of Training Programme

EXPERT TRAINER

Brief Bio

The trainer for this course is a Chartered Accountant (SA), Associate Chartered Management Accountant, Chartered Global Management Accountant, with strong academic and industry experience. She holds a Master's degree in Management Accounting and has more than nine years of lecturing experience at the University of Pretoria and North-West University respectively, for which she has received distinctive teaching awards.

As a lecturer, she specialised in Management Accounting, Costing, Financial Management and Business Strategy to students of various levels. This is besides providing business simulations, supervising research projects and external moderation and reviewing of other universities' exam papers and study guides.

She has been delivering training to both government institutions and private sector companies in similar subject areas, including Microsoft Excel, financial and business skills training, as well as consultation in fields related to financial modelling in Excel, optimising power tools in Excel and Power BI.
